Dear Ms. Kim:

After doing some research the school met the Stipulations in October of last year. Their status was changed from "Accredited with Stipulations" to "Accredited".
The school is in great standing with MSA.

I have now corrected our database.

I hope this information will help.

Sincerely,

Leslie Green

Hi Leslie,

Thank you for getting back to me. Would you consider the Stipulations that Bingham Academy in Ethiopia has to be major or minor deficiencies toward accreditation?

Dear Ms. Kim:

My apology, I thought someone had gotten back to you.

Here is our definition of what Accredited with Stipulation means:

An Institution “Accredited with Stipulations” is granted when the Commissions have determined that an institution meets all of the Standards for Accreditation of the Commissions on Elementary and/or Secondary Schools, but does not meet one or more of the Indicators for the MSA-CESS Standards for Accreditation, one or more applicable MSA-CESS policies, and/or one or more requirements of the protocol selected for self-study and accreditation. In such cases, MSA will identify the stipulations and specify the nature, purpose, timelines, and scope of any corrective action required or additional information to be submitted to the Commissions by the institution. Subsequent reports and/or on-site visits may be required to provide the Commissions with assurance that appropriate corrective action has been taken. Corrective action must take place within the specified time limit unless otherwise approved by the President of MSA-CESS.

Sincerely,

Leslie Green

Subject: Accredited with Stipulation

Dear Leslie,

While checking accreditation status for Bingham Academy, I saw a puzzling phrase on the MSA directory: "ACCREDITED WITH STIPULATIONS." What does this mean, and is it safe to accept high school transcripts with this designation for college admissions purposes?
